The Form 990 is then reviewed by CBIZ Advisors, LLC, PIH's tax advisor. A complete draft of the Form 990 is then reviewed by the PIH Chief Executive Officer. This draft is then provided to the Audit Committee for their review with the exception of Schedule B. Finally, the Form 990 is provided to the full Board of Directors prior to filing, with the exception of Schedule B. Form 990, Part VI, Section B, Line 12c - Each year, all PIH officers and Board members are required to review the Organization's conflict of interest policy and indicate their compliance in writing. Throughout the year, PIH senior leadership reviews major conflicts and expenditures. Any arrangements or expenditures that might give rise to a conflict of interest either in fact or appearance would be raised to the Executive Committee and the Board of Directors for discussion and disposition. The Board reserves the right to disallow any such transactions, arrangements, or other working relationship and/or to ask the interested person to remove themselves from any discussion or vote in the matter. The Board shall determine the existence of a conflict of interest by a majority vote of the disinterested directors.

capacity, and high-tech classrooms for training the next generation of Haitian medical professionals. This year, ZL focused on expanding and improving its solar power system at HUM to foster energy self-sufficiency and creating a reliable source of electricity despite the ongoing insecurity, reducing the reliance on diesel and helping ensure continuity of care as power outages significantly impact clinician ability to care for their patients. The Mirebalais Reference Laboratory for Diagnostics and Research on the campus of HUM is further setting a new standard for laboratory excellence in Haiti. This 12,000 square foot reference lab is the premier reference center for HUM, as well as for an extensive network of other ZL-supported public health centers and hospitals across the country. HUM received international accreditation as a teaching institution in 2019 and is home to six residency programs. Through residency and training programs in HUM and in Saint Marc, ZL is providing high quality training to increase the pipeline of trained clinicians working in Haiti, including emergency medicine (the first residency of its kind in Haiti), family medicine, internal medicine, pediatrics, surgery, obstetrics/gynecology, and nurse anesthesiology. Since 2012, ZL's medical education program has trained 194 Haitian clinicians across 10 different specialties. 80% of graduates stay to work in Haiti and more than half (52%) of graduates are women. Together, these highly trained professionals are bolstering Haiti's health system, one new graduate at a time.

needs informed by research and community voices. Despite the early successes of PIH's efforts, Sierra Leone remains one of the most dangerous places on earth for women to give birth. This emergency requires a bold plan to implement long-term, systemic solutions to address the preventable death facing women, children, and their families in Sierra Leone. The Maternal Center of Excellence (MCOE) is PIH's response to both the devastating circumstances and promising advancements we've seen in women's health in Kono District, across Sierra Leone, and around the world. In partnership with the Government of Sierra Leone, PIH is constructing, equipping, and staffing the estimated 166-bed national center of excellence in an effort to improve and expand access to a comprehensive, advanced package of care for women and children-more than doubling the maternity inpatient beds available in the local community. Establishment of the MCOE as a hub of innovation through the development of clinical training, mentorship, and research programs will allow for replication of the MCOE model in nationally and globally, through government accompaniment, advocacy, and the transfer of knowledge and innovation.

engagement. This achievement highlights the continued dedication to excellence, equity, and innovation in global health education. In April, PBS News Hour traveled to Rwanda to highlight how UGHE is connecting people in remote communities to lifesaving care and educating the next generation of African healthcare providers who are committed to staying in and serving their communities. UGHE's campus in Rwanda's rural Burera District features strategic design elements to encourage interdisciplinary collaboration. The hands-on educational environment includes an innovative clinical simulation center, fully equipped laboratory spaces, and teleconferencing facilities for remote instruction by leading clinicians. Planned expansions to the UGHE campus will add teaching and learning space, library and laboratory capacity, enhance the simulation center, broaden research capabilities, and extend student services. The campus is also intentionally located near PIH-supported Butaro Teaching Hospital, the first district-level teaching hospital in all of Rwanda, where UGHE medical students perform their clinical rotations.
