

Hi Engagers!

We are thrilled to have you on board for the Crash Course! Your dedication and willingness to contribute your time and effort to this initiative are truly appreciated. Together, we can make a significant impact on the learning journey of many individuals.

New to Engage this year?

If you have never completed the crash course on your own, please complete the **2025-26 PIH Engage Crash Course**. You can do this by following [this link](#) to make an account on our course platform, after which you should have access to the course!

Returning to Engage?

If you've already completed the Crash Course in a previous year, and attended TI 2024, you do not need to take it again; however, you are required to complete the **2025-26 PIH Engage ADVANCED Crash Course**. You can access the Advanced Crash Course at [this link](#) – you can either sign in to an existing account or register for a new account.

Anyone is welcome to take **either Crash Course** if they'd find it helpful. New Engagers should start with the regular course before exploring the advanced one, and returning Engagers are more than welcome to revisit the regular course if you'd like a refresher!

We encourage you to take notes, ask questions, and engage in discussions as you go through the course. If you encounter any technical issues or have any questions or concerns, please feel free to reach out to the Crash Course support team at engage@pih.org. We are here to assist you throughout this journey.

The PIH Engage Network Leadership Team
